

Designing the game was only the start of the challange

Pilot Safety

Josine van de Ven TNO

Challange of the project

Show how serious gaming can be used in the field of Safety

Hogeschool voor de Kunsten Utrecht 💨

Time line

Introduction lesson on policy teams for Gate team

2008

Brainstorm session GATE team en students HKU*

2009

Mid-term review GATE

Experiment mock-up Hogeschool Den Haag

2010

Last experts

Experiment web-based game Hogeschool Den Haag

2011

Expert session on learning goals and conditions

Expert session paper-based game

Expert session Mood board of 3 concepts Expert session mock-up, feedback and characters

> 10 deputy mayors play mock-up

Expert session web-based game en feedback

> Launch Web-based game VR MWB*

Game is used at different locations in NL to train mayors

6 mayors play mock-up VR Z* en NCC* use game for prep Indian Summer

- *VR MWB = Safety region Midden- en WestBrabant
- *VR Z = Safety region Zeeland
- *NCC = Nationaal CrisisCentrum
- * HKU = Hogeschool voor de Kunsten Utrecht

Learning goals & Conditions

What are my tasks and responsibilities?

What information do I need?

How do I make decisions under time pressure?

Who provides me my information?

Short, 15 minutes max.

Safe

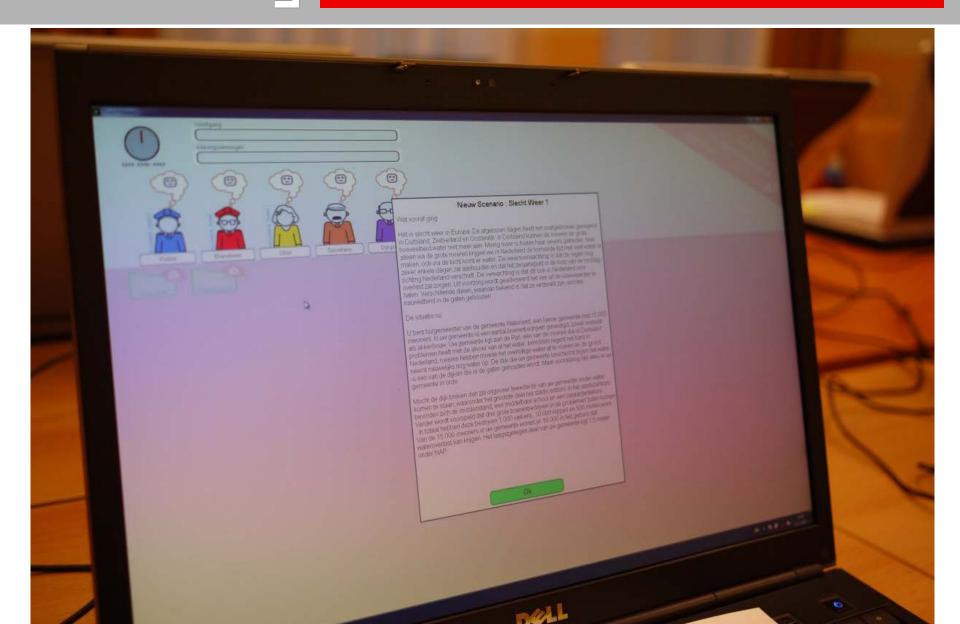

Paper-based game

Mockup

Web-based game

Used for training

Next Challenges

25 Veiligheidsregio's

417 Municipalities

Other Challenges

Find a 'supplier'

 Consortium was in the project for the knowledge on gaming for a specific domain, target audience

Find a 'supplier'

- Netherlands Institute for Safety (NIFV)
- By law: provide products to Safety domain

Price of the product must be conform market prices

- Unique product
- What is our business model
- Find new team members...

And then...

Nationaal CrisisCentrum (NCC)

- NCC Academia
- Government
- Works with tenders, or...

Challange is not over.. yet
