SIKS-symposium on Data mining

DATE:
October 11th, from 11am till 3 pm

LOCATION:
TU Eindhoven, Zwarte Doos; Zaal 2.03

(http://w3.tue.nl/fileadmin/organisatie/objects/doc/plattegrond-eng-2009aangepast.pdf)

The Symposium is part of the Advanced Component Stage of SIKS educational program. Especially SIKS-PhD-students working on the research focus Computational Intelligence are strongly encouraged to participate. At the SIKS-symposium three talks will be given by top data mining researchers. There is a free lunch for all participants. IF YOU PLAN TO ATTEND, PLEASE REGISTER BY EMAIL TO: wsinfsys@tue.nl

PROGRAM:

11:00à12:00 Indrė Žliobaitė (Bournemouth University, UK) "Active learning with evolving data"

12:00à13:00 Bart Goethals (University of Antwerp, Belgium) "Cartification: from Similarities to Itemset Frequencies"

Lunch

14:00à15:00 Dino Pedreschi (University of Pisa, Italy): "Data mining for discrimination discovery"

The symposium will be followed by the public defense of the thesis of Faisal Kamiran.

16:00à17:00 Defense Faisal Kamiran: "Discrimination-aware classification" (collegezaal 4 of the auditorium building)
